PROFESSIONAL SUMMARY

Computer Science Engineering student with a growing foundation in programming and web development. Interested in building practical software projects, strengthening problem-solving skills, and learning modern technologies. Currently developing skills in C, Python, Java, Data Structures and Algorithms, and backend development with Flask.

EDUCATION

Bachelor of Engineering — Computer Science and Engineering
S J C Institute of Technology, Chikkaballapur

2025–2029

TECHNICAL SKILLS

Programming: C, Python, Java (currently learning)

Web Development: HTML, CSS, JavaScript

Backend: Flask

Tools: Git, GitHub, VS Code

Currently Learning: Data Structures and Algorithms, Operating Systems, GATE Preparation

PROJECTS

Resume AI Ultra | Python, Flask, HTML, CSS, JavaScript

- Developed a web-based resume screening and matching application.
- Built a Flask backend and integrated resume-processing functionality.
- Deployed the application online using Render.
- Managed source code and version control using Git and GitHub.

Live Demo: resume-ai-ultra.onrender.com | **GitHub:** github.com/KrishKumarGupta80/ResumeAI-Ultra

CERTIFICATIONS

- **Python Essentials 1** — Cisco Networking Academy through SJC Institute of Technology (30 Apr 2026)
- **Python Essentials 2** — Cisco Networking Academy through SJC Institute of Technology (18 May 2026)
- **Programming in C** — Infosys / Wingspan (27 Dec 2025)
- **Interactive Skills** — Infosys / Wingspan (20 Nov 2025)
- **Design Thinking** — Infosys / Wingspan (25 Sep 2025)

RELEVANT LEARNING

Programming Fundamentals • Data Structures and Algorithms • Operating Systems • Web Development • Backend Development with Flask
